### Importance of TQFRs

## 2017-18 — ARC/CTLO

The Official Student Guide to TQFRs

	Score
Used by professors extensively to improve the course	5.00 ± 0.00
Provide insight for other Techers	5.00 ± 0.00

### TQFRs should...

	Score
Reflect the entire term (not just the last three weeks)	5.00 ± 0.00
Reflect average workload (not just the peak amount)	5.00 ± 0.00
Be as specific as possible	5.00 ± 0.00
Focus on your learning	5.00 ± 0.00

### Example Comments

Comments are super important! It gives context for your ratings of the class. The more specific, the better!

Useful	Uninformative
Professor is <b>approachable</b> and a <b>dynamic</b> lecturer. <b>They emphasize the important topics in class</b> , to the point where textbook reading is almost a formality. The professor <b>was always willing to meet with me 1-on-1</b> for additional office hours sessions and helped explain concepts to me. Would highly recommend taking this class!	The class was good and I liked the professor.
I felt that the class was disorganized because <b>lecture notes were only posted weeks after the set was due</b> , and I <b>never got my sets back</b> . Also, it became pretty common for the <b>professor to be late to lectures</b> . I often felt lost in the class and that really stressed me out. Course material was kind of interesting though.	This class was SUPER difficult like insanely difficult. Seriously, the last three weeks I couldn't take the workload and the professor just started talking about topics that had nothing to do with the class and everyone was super confused. Final was also super difficult.
